For more information, call 334-5393.
# TABLE OF CONTENTS

## I. GENERAL PROCEDURES AND DIRECTIONS
- Contact and Submission Information ................................................................. 3
- Important Submission Deadlines ......................................................................... 4
- Unit-Level Curriculum Committee Contact Information ................................. 5
- Procedures for Submission of Proposals .............................................................. 6

## II. FLOW CHARTS FOR PROCEDURES TO FOLLOW FOR DEVELOPMENT AND IMPLEMENTATION OF PROGRAMS
- New Baccalaureate Degree Flow Chart ................................................................. 9
- New Masters or Specialist Degree Flow Chart ................................................. 10
- New Doctoral or First Professional Degree Flow Chart .................................... 11
- Certificate and Licensure Programs Flow Chart ............................................... 12
- Distance Learning Degree Programs (on-line/off-campus) Flow Chart .......... 13
- UNCG Steps for New Program Implementation and Changes ......................... 14

## III. FORMS AND INSTRUCTIONS
- Which Form Should You Use? ........................................................................... 16
- New or Amended Course Proposal (Form A) ..................................................... 17
- Signature Sheet for Curricular Requests (Forms A, F, G, J) and UNCGA Notification of Intent to Plan/Request to Establish New Degree Programs (Appendices A, B, C, F, G) ... 18
- Guidelines for Completing Form A ................................................................. 19
- Additional Guidelines for Preparing Proposals for Internship/Practicum Courses ... 22
- Course Consultation (Form B) ................................................................. 24
- Request for General Education Categories and Markers (formerly Form C) see Section IV
- Routine Course Change Request (Form D) ........................................................ 25
- UNCG Experimental Course Proposal (Form E) ............................................ 27
- Additions, Discontinuation, or Moratorium of Concentrations, Second Academic Concentrations (SAC), Second Major Option, and/or Minors (Form F) ............ 29
- Program Revision (Form G) ................................................................. 31
- Request for Service-Learning Course (Form H) ............................................. 33
- Service-Learning Course Guidelines ............................................................... 36
- Special Curriculum Option (Plan II) (Form I) .................................................. 37
- Plan II Proposal Format ................................................................. 40
- Certificate/Licensure Program Proposal (Form J) ............................................ 41
- Request for Discontinuation/Moratorium of a Degree Program (Form K) .......... 43
- Request for Change of Degree Name, Title, or CIP code of an existing Degree Program (Form L) ................................................................. 46

## IV. General Education
- General Education Program, Mission and Goals ............................................. 49
- General Education Curriculum Requirements .................................................. 51
- General Education Approval Process .............................................................. 53
- General Education Form .................................................................................. 54
- Communication Across the Curriculum Form (WI & SI) ................................ 57
- Guidelines for Requesting General Education Categories and Markers .......... 61
- GEC Category and marker Student Learning Outcomes .................................. 61
- General Education Council: Regulations & Procedures ................................ 62
V. UNCG AND AGENCY POLICIES RELATED TO CURRICULUM DEVELOPMENT

Standard Course Syllabus Format.................................................................67
Course Syllabus Format as Required by NCATE........................................71
UNCG Course Credit Structure Guide for Standard Courses That Meet Weekly....72
Planning and Establishing New Degree Programs..................................74
   Discontinuation of Degree Programs.....................................................74
Post-Baccalaureate and Post-Master’s Certificate Program Policy Guidelines ....74
   Discontinuation of Certificate Programs................................................75
Development of New Concentrations or Minors........................................75
Special Curriculum Option (Plan II)............................................................76
Effective Date of Program Changes..........................................................77
Changing the Name, Degree Title, or CIP code of an Existing Degree Program,
   the Name of the Department, and/or a Course Prefix............................77
Area of Study Codes (AOS)........................................................................78

UNCG Distance Education Policy...............................................................85
SACS Principles of Accreditation...............................................................87
Seven Principles for Good Practice in Undergraduate Education...............87
Guidelines for Good Practice in Graduate Education................................88
UNCG Basic Technology Competencies.....................................................91
UNCG’S VISION FOR TEACHING AND LEARNING

UNCG embraces student learning as its highest priority and provides exemplary learning environments. The University establishes a diverse community of learning in which individual differences are valued and interactions are encouraged in an atmosphere of mutual respect.

The faculty are committed to introducing students to the most important knowledge and research in their disciplines, fostering intellectual depth and breadth, and opening students to new possibilities for understanding themselves and the world. The faculty employ the growing body of knowledge about learning and work continually to evaluate and improve their teaching methods and materials. UNCG views learning as a shared responsibility, and accordingly,

- maintains clear, high and consistent learning goals,
- provides a variety of opportunities which foster intellectual growth,
- empowers individuals to take responsibility for their own learning,
- recognizes and supports diverse learning styles and levels of development,
- incorporates appropriate informational and instructional technologies,
- encourages the integration of knowledge across disciplines, and
- utilizes assessment, evaluation and feedback to improve teaching and learning.

UNCG expects all students to communicate clearly and to make effective use of technology appropriate to their studies. Students are encouraged to be actively engaged in their education. UNCG graduates should be ready to continue as lifelong learners and to face the challenges that will confront them as responsible citizens of the state, the nation and the world.

- approved by the UNCG Faculty Senate
  December 2, 1998
